COMMUNITY & SERVICE GUIDE

Making a Meaningful Impact

Where students learn to make a difference.

At ISF, students are encouraged to contribute to both local and global communities.

KEY INITIATIVES

ISF Kenya Project

A long-standing school-wide community service project that was established in 1999 to help support a primary school in Kenya.

The ISF Kenya Project is a school-wide community service project that was established in 1999 to help support a primary school in Kenya. Chitsanze Primary School is located near Mombasa in Southern Kenya. It is a co-educational school serving about 250 students from Kindergarten through Grade 8. Many people in Chitsanze live in small mud huts situated around the school. Some Chitsanze students who live in outlying areas walk for half an hour through the bush to get to school.

When ISF began supporting Chitsanze Primary School, the main Chitsanze school building was new but very small. While in the initial stages of the project, ISF donations were used for basic school operating expenses and much needed school supplies, over the years, ISF donations have helped to expand the school's facilities. Funds provided by ISF have been used to build and furnish six additional classrooms, a staff room, a library, and an administration office.

Most recently, ISF donations have been used to build a water tank, rebuild the boys' toilets, make roof repairs, repainting, and buying first aid kits. Current projects include the construction of a shaded area for Parent-Teacher Conferences and a fence around the entire school compound. Future projects may include establishing a water connection to the school dispensary, which will then be refurbished.

In the early years of the ISF Kenya Project, students in ISF raised funds through bake sales and raffles. Since then, ISF students, staff and parents have worked together to organize larger fundraising events such as a spell-a-thon, student benefit concerts, the Kenya Project Auction, penny races, run-a-thons, swim-a-thons, and jewelry making.

Through the ISF Kenya Project, our students have gained an important understanding of the lives of children much less fortunate than themselves.

*The ISF Kenya Project e.V. is officially registered as a non-profit association.
More information can be found on the Kenya Project website.*

COMMUNITY & SERVICE GUIDE

HABITAT FOR HUMANITY

- Students participate in building projects across Europe.

STUDENT-LED IMPACT

- Charity events and fundraisers
- Environmental campaigns
- Crisis-response initiatives

SKILLS DEVELOPED

- Empathy and social responsibility
- Leadership and initiative
- Global awareness

**STUDENTS LEAVE
ISF NOT ONLY
ACADEMICALLY
PREPARED**

**- BUT READY TO MAKE A
POSITIVE IMPACT.**
