

TRANSPORTATION SERVICE

**Please note that ISF is not a party to contracts entered into between the parent and the transportation company. As such, ISF accepts no legal responsibility for either party.*

For the 2025-26 school year, **three well-reputed companies** are offering their services to interested ISF families. All four provide a door-to-door service and offer prices dependent on distance from home to school. All of the companies do not necessarily serve all residential areas in the Frankfurt-Rhein-Main area.

Families interested in transportation services are invited to contact the company/companies they are interested in and request more detail.

The contact details for each company are as follows:

Parents should note that the contractual agreement is between parents and the selected company. The company is responsible for the provision of the services detailed in the contract. ISF is not a party to the agreement; however, members of staff from ISF will monitor the smooth running of the various transportation services on a day-to-day basis, particularly at arrival to and departure from the school.
