

TRANSPORTATION SERVICE

For the school year 2023-2024 ISF has received transportation offers from two companies. They have provided us with details of their pupil transportation license and we have verified them.

Both companies provide a door-to-door service and offer prices related to distance. Please note that the two companies do not provide services in all areas but focus on certain areas defined in their information sheets.

Please note that if you choose not to use one of the two companies we have listed there is no guarantee that any alternative company will have the appropriate license required to transport school pupils. We would recommend strongly that before you entrust your child's safety to any other transport company other than the two we have listed, you should verify carefully that this alternative company has an official pupil transport license.

A table showing an example of how prices compare between the companies is on the back of this page. Please note that there are different options for payment, which have an effect on the total price per year. Also companies may offer early and late bus services or charge different expenses for siblings with different conditions.

Parents should note that the contractual agreement is between parents and the selected company and that ISF will play no part in this contractual agreement. Therefore the company is responsible for the carrying out of the services detailed in the contract. ISF will play no part in this. However, members of staff from ISF will oversee the smooth running of the various bus services on a day-to-day basis particularly at the entry and exit to the school.

Overview of Transportation Fees (2023-2024)

Requirements:

- The prices given below are full year fees with given payment methods
- The exact definition of the zones should be checked with the provider to ensure proper classification
- 7% VAT is included in all prices
- Sibling discounts are available depending on the provider
- Early and late buses are available depending on the provider
